

CHINEDU EMORDI

PROFESSIONAL SUMMARY

A skilled Front End Engineer with 5 years experience in Web application development and services. I have a mindful practical approach to improving software performance, testing, and developing new functionalities. With a proven record of successfully finished projects and the ability to shape products on schedule and within budget, I am an excellent problem-solver that understands business challenges from the client's side.

WORK HISTORY

Front End Lead, 12/2021 - 06/2022

Herconomy, Lagos, Lagos

- Shaped and developed Savings application that allows user to Auto save
- Maintained high-level expertise in React state management strategies, including Redux and redux-saga.
- Exclusively used React-Hooks to handle application life-cycle processes.
- Built custom components that are reusable consisting of Dropdown, Carousel, Button, Checkbox, Input and icon.
- Developed the front end using React.js, Redux, CSS, and JavaScript
- Accomplishments
- The company was able to launch the platform and acquire active users, ultimately generating revenue increases

Senior Software Engineer, 05/2021 - 11/2021

Decagon, Lagos, Lagos, Nigeria

- Conducted code reviews, mentored junior developers, and led different teams. Developed front-end applications using React.js and performed state management with Redux and CSS3.
- Generated unit testing with Jest, React testing framework, and Cypress. Created CI/CD pipelines with CircleCI and GitHub actions. Integrated the web API into the front end.
- Performed database management with MongoDB for data storage, created solutions with Amazon Web Services, and devised containerization with Docker.

- Built efficient and scalable apps following client requirements

PROJECTS

Herconomy

A savings platform targeted at women where you not only save and earn high interest but you also save as you spend on things that you need from salons to restaurants to pharmacies, to hotels etc

It has two wallet options :

Vault: Works like a fixed deposit account with preset withdrawal dates that help you take your hands off your savings while earning 10% interest per annum, prorated and available to you monthly.

Float wallet: A transactional wallet with no limits to your withdrawals but still gives you up to 8% interest per annum!

Best part, you can also automate your savings with our 'Easy Save' feature and enjoy saving on a daily, weekly or monthly basis without having to lift a finger and your money is 100% safe as we've partnered with a reliable bank and asset managers.

Technologies Used - React , Redux, Javascript, Css,

Saas,Paystack, AWS,

Link: <https://dashboard.herconomy.com>

Hotel Booking System :

A Hotel Booking System that allows hotel owners to post their hotel services and customers to patronize such services.

Technologies Used - React.js, JavaScript, Nodejs, Express, MongoDB, Flutterwave to process payment.

Link: <https://hotelbooking-2.herokuapp.com>

Movie review Application:

The Movie review app allows a user find and display information about their favorite movies

Technologies Used - React.js, JavaScript, Nodejs, Express, MongoDB
